DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species:

I. Species shown in Figs. 1A-1B.

II. Species shown in Fig. 2.

III. Species shown in Fig. 5.

IV. Species shown in Fig. 7A.

V. Species shown in Fig. 7B.

VI. Species shown in Fig. 8.

2. The species are independent or distinct because they are not capable of use together and have a materially different design, the species do not overlap in scope, i.e., are mutually exclusive, and the species are not obvious variants.

3. Because these species are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the species require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

Art Unit: 3766

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
